About clinic:

Among the first clinics, which provided HIV care ambulant in Berlin, “Praxis Jessen2 und Kollegen” is now a teaching clinic of the Charité University Clinic, free university of Berlin, as well as a research center. The clinic provides services in infectology, including HIV and Hepatitis C treatment, addiction medicine, proctology and sport medicine. It also serves the community as a general practitioner’s office with a vision of “360 degree care”
